REPORT OF SCHOOL NURSE

To the School Board and Citizens of Hollis:

I herewith tender my report as School Nurse from September 30, 1930 to February 1, 1931.

		Corrections Made	Under Treatment
Number examined	192		
Underweight	33		20
Defective teeth	78	2	
Defective tonsils	39	4	
Defective vision	20	10	
Defective hearing	3		1
Orthopedic defects	2		2
Skin disease	2		1
Unvaccinated	35		
Home calls	32		
School visits	28		

Groups of pupils are re-examined each month and in this way the nurse comes in direct contact with each child frequently and a gain or loss in weight noted. This is especially beneficial in checking up on the underweight group.

Four children have had tonsil and adenoid operations performed at the Memorial Hospital in Nashua and arrangements for six others have been made to be performed when the weather conditions are better. The number of defective teeth is large and I hope a dental clinic can be put on in the Spring. I feel sure this can be done as I have received excellent co-operation from the parents.

I wish to thank the teachers and pupils for their interest and help in the Health Work in the schools.

Respectfully submitted,

MARGARET E. CRONIN, R. N.,

School Nurse.

REPORT OF SUPERINTENDENT OF SCHOOLS

Hudson, N. H., Feb. 2, 1931

To the School Board and Citizens of the Town of Hollis:

GREETINGS:

The following is my first annual report as superintendent of your schools. There were but two changes in your teaching staff at the beginning of the year. Mr. A. Herbert A. Huntoon replacing Paul Fenton, as teacher of Agriculture and Science, and Miss Evelyn Hills taking charge of the Pine Hill School.

I believe that on the whole you have an efficient corps of teachers who are sincerely and conscientiously working for the best welfare of your boys and girls. I have found these teachers very willing to co-operate with me in furthering the educational progress of your schools.

Some very desirable changes were made in your high school building during the summer vacation. The seventh and eighth grades being moved from the second floor to the first floor, and the second floor room converted into an agricultural class and workroom.

Enough portable furniture was purchased to finish equipping the third and fourth grade room and this new equipment seems to be working out to the satisfaction and betterment of the pupils, the teachers, and the school as a whole.

Recently we have started a program of equipping the school with new curtains. This program will call for the equipment of one or two rooms each year until the building is fully equipped.

I am very much interested in the results which I hope may be obtained from the Agricultural course. It seems to me in an agricultural community like Hollis, such a course should prove of great value to the boys, and through the boys to the ultimate betterment of their home farms as a whole.

It would be a great help if the parents directly or through the boys in the course could communicate to Mr. Huntoon or to myself, the ways in which they individually believe that the course may be improved, and the educational topics and materials which should be studied by these boys in order that the course may become a real asset to the farm life of the town.

I believe that sufficient material is presented to the boys, but that some of them through lack of interest in, or through lack of initiative, take this work too lightly and thus receive a low degree of benefit from the work prepared. The organization of the course calls for two periods each day, and this eliminates the necessity of very much homework in the course, but with the added school time devoted to it, the amount of preparation required and the results obtained must be equivalent to that of any other course.

I have asked all of your teachers this year to stress reading to each individual pupil as I believe that lack of ability in reading, and at least, average rate of speed, and being able to understand what has been read is the cause for most of the failure of the boys and girls in our schools today.

Miss Margaret Cronin has been employed as your school nurse for the year and is very enthusiastic to have the defects of your children corrected in so far as medical science will permit. Her report is included in this town report.

I wish to thank the teachers for their sincere co-operation and assistance which they have given me in performing my duties in your schools.

I wish to thank the members of the School Board and the citizens of the town for the co-operation which they have given to the teachers and the pupils of the schools, without which the schools could not succeed. I wish to urge the parents and other interested citizens to visit the schools and see at first hand the accomplishments.

Respectfully submitted,

FRED W. HALL,

Superintendent.
